Dusk is looming, Your breath starts to condensate,
Joints stiff, you rub your hands to generate some heat.
Raising your eyes, your heart beats in relief.

WELCOME TO

An accommodation with essential amenities and fixtures, Cotel enables total recuperation anywhere in the world.

Off-Grid Lodging

Humanitarian Missions

Charitable Initiatives For Impoverished Regions

Easily deployed from the remote foothills of the Himalayas to the renowned camping grounds of Corcovado Park, Cotel is fabricated from recycled containers, and outfitted with durable fixtures, featuring bunk bed(s), solar-powered wall sockets, fully potable water*, a washroom and shower.

* With nearby freshwater source.

ZERO

ENVIRONMENTAL FOOTPRINT

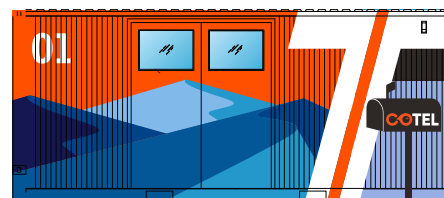

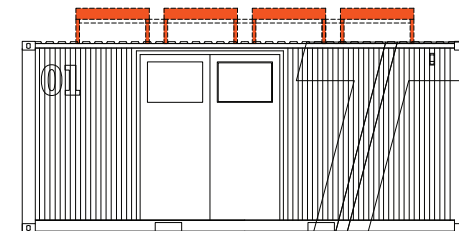

utilising a nearby freshwater source to provide potable water for drinking, showering, washing and more.

Photovoltaic solar panels located on the top of the container ensure that

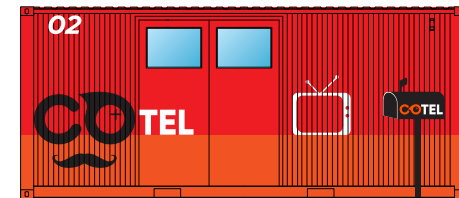

fixtures, USB sockets and wall sockets are readily powered via transfer of high-discharge battery packs.

Personalised with custom weather-proof painted exteriors, the retreat is kitted out for an array of users, from the Survivalist to the Nature Lover.
